

Service-Level Agreement (SLA)

1. Objective

This Service Level Agreement (SLA) supplements the Master SaaS Agreement (SaaS Agreement) or Zluri Terms of Service (Terms), as applicable, and together such documents and others referenced in the Agreement form a binding agreement (the Agreement) between Zluri and the Customer. Unless otherwise provided herein, this SLA is subject to the terms, and the capitalized terms will have the meaning specified in the SaaS Agreement, as applicable.

2. Service Commitment

During the Term of the Agreement, the software will be fully functional and internet accessible on a 24x7x365 basis, except for scheduled maintenance periods, and provide a monthly uptime percentage to the customer of at least 99.9%, excluding scheduled downtime ("Availability"). The customer may access the [status page](#) to get periodic updates at any time.

3. Service Credit

The customer shall be entitled to a service credit as follows:

- If availability is at least 99.9%, no credit is awarded.
- If availability is 95% to 99.89%, the customer will receive service credit equal to 2% of the annual Subscription Fee for that month
- If Availability is 91% to 94.9%, the Customer will receive service credit equal to 5% of the annual Subscription Fee for that month
- If Availability is less than 90.9%, the Customer will receive a service credit equal to 20.0% of the annual Subscription Fee for that month.

Any Customer request for a credit that Customer is entitled to under this SLA may only be made on a calendar monthly basis and must be submitted in writing within 10 days after the end of the relevant calendar month or shall be deemed to have been waived by Customer. For those periods at the end of a subscription term that do not coincide with the end of a calendar month, the Customer must make a claim for credit within 10 days after the expiration of the Subscription Term or the claim for credit shall be deemed to have been waived by the customer.

The right to a credit described in this section shall be the sole and exclusive remedy available to the client in the event of the unavailability of the services as set forth herein. In no circumstance shall the unavailability of the services be deemed a default under the agreement or this SLA.

Note:

Service Credit means a percentage of the Fees for the calendar month in which the SLA is not met to be credited against the customer's future fees if requested by the Customer in accordance with the Section above.

4. Support Services

- Zluri Support Team shall provide support on all business days, except for Support Holidays.
- Any Support queries received on Support Holidays, Saturdays, and Sundays will be collected; however, due action shall be taken only on the next business day.
- Support Channels: Customers can raise tickets on any of the below-designated support channels:
 - Email id: support@zluri.com
 - Zluri Support Management System [Freshdesk](#)
- **Issue Categorization and Service Requests** - Categorization of the issues raised will be at the sole discretion of Zluri, and the issues will be categorized as:

Issue Category	Initial Response / Ongoing Communication	Fix Time	Description
Critical (P1)	2 hours / Daily Update	Workaround or fix within 1 Working Day.	Critical product issue that severely impacts customers' use of the service. The situation halts or impacts customers' business operations, and no procedural workaround exists. • Service is down or unavailable. • A critical documented feature/function is not available,
Major (P2)	12 hours / Every 2 Days	As per the defined Internal support Process	A feature or functionality is affected, or there is minor performance degradation, causing significant disruption to the customer's ability to use the platform. It may impact multiple users or a critical part of the system but does not fully stop operations.

Minor (P3)	24 hours	As per the defined Internal support Process	Non-essential features are affected, causing inconvenience but not blocking users from completing their main tasks. It may impact a small number of users or a non-critical part of the system. A workaround is available, and customers can still perform necessary actions.
Cosmetic (P4)	48 hours	As per the defined Internal support Process	Routine technical inquiry or request for information on application features, navigation, installation, or configuration. A minor bug affects a small number of users, but a suitable workaround is available.

Note:

- The Customer shall provide all access, relevant information, and support to Zluri team in a timely manner to resolve the issue.
- Zluri shall not be accountable for any delays caused by Customer in sharing required information.

• **Definitions:**

- **Downtime** means the Zluri Platform is not available for use according to performance and monitoring data utilized by Zluri at its sole discretion. Downtime does not include the period of time when the Zluri Platform is not available as a result of Scheduled Downtime.
- **Monthly Uptime Percentage** means the total number of minutes in a calendar month minus the total duration in minutes of Downtime in that month, divided by the total number of minutes in that month.
- **Scheduled Downtime** means times when Zluri notifies the Customer of periods of Downtime for scheduled maintenance. Zluri will make commercially reasonable efforts to schedule maintenance during low traffic times, preferably during weekends. Customers shall be notified of Scheduled Downtime via email and/or notification from the support team at least one calendar week in advance.
- **Service Credit** means a percentage of the Fees for the calendar month in which the SLA is not met, to be credited against Customer's future Fees if requested by Customer, in accordance with Section 3 above.
- **Workaround or Resolution plan** means a feasible change in operating procedures whereby an end-user can avoid a possible impact without any material inconvenience.
- **Internal Support Process Flow:**
